

# MOVING MARIONETTE WITH ELECTRON

LE MERCREDI 22 JUIN

PAUL JARLETON

BackboneJS - MeetUp

Paul Jarleton

Etudiant Ingenieur, Télécom SudParis

@sarlam\_j - <http://jarleton.me>

# UNE RECETTE DE DESKTOP WEBAPP

- 100 g de nodejs et de V8
- 1 ~ 2 c.a.s d'Electron
- 30cl de marionettejs

# LE POINT SUR JS

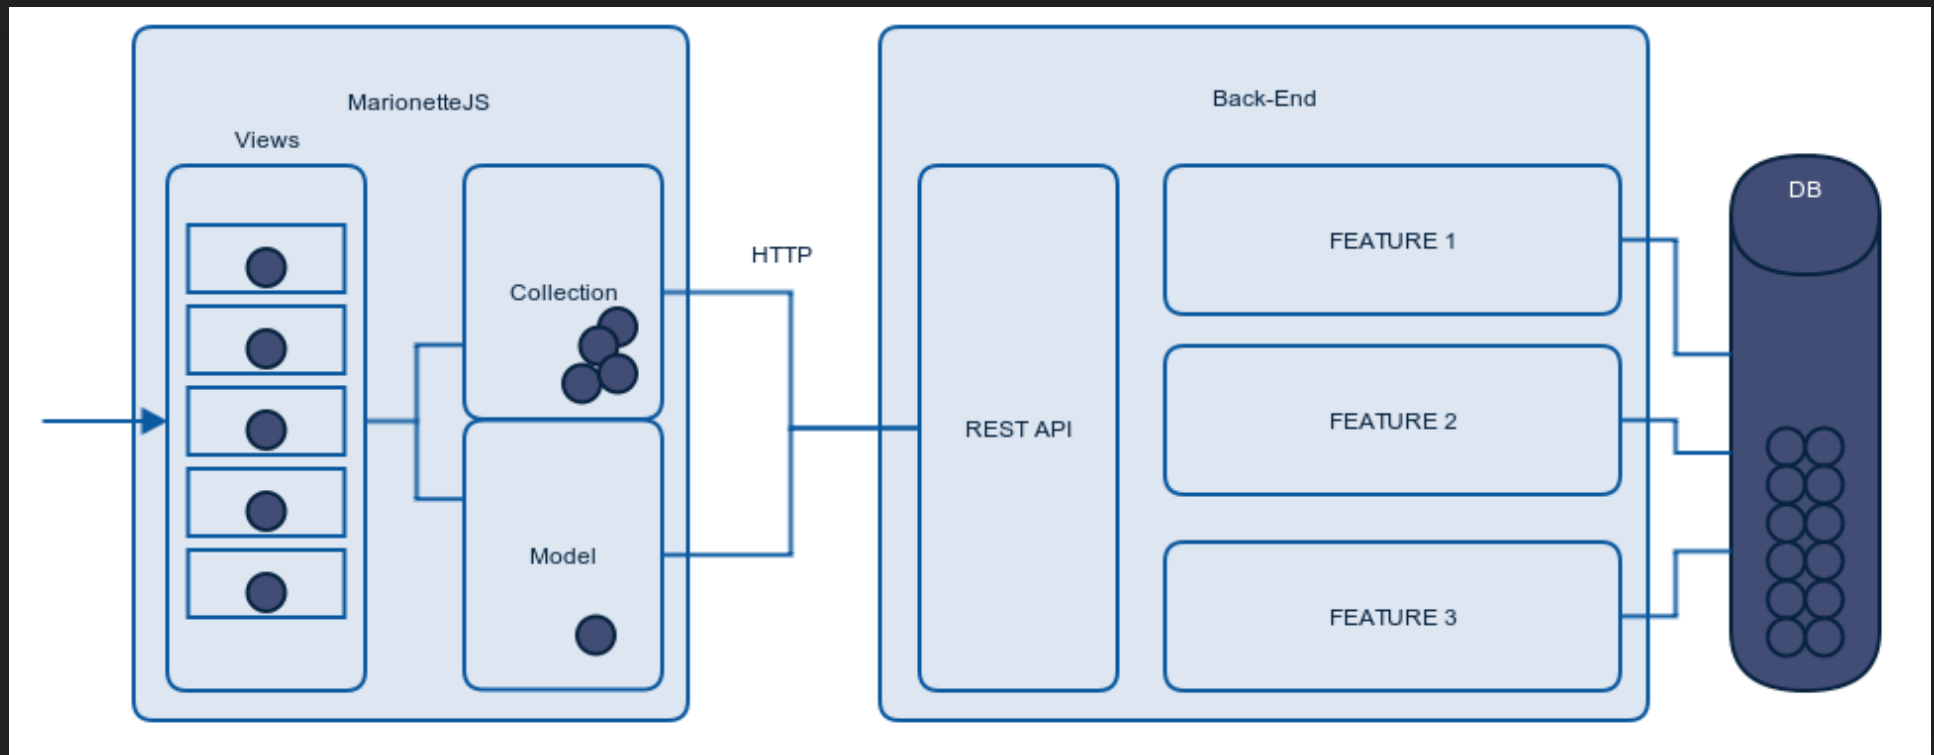

# QU'EST CE QU'ELECTRON

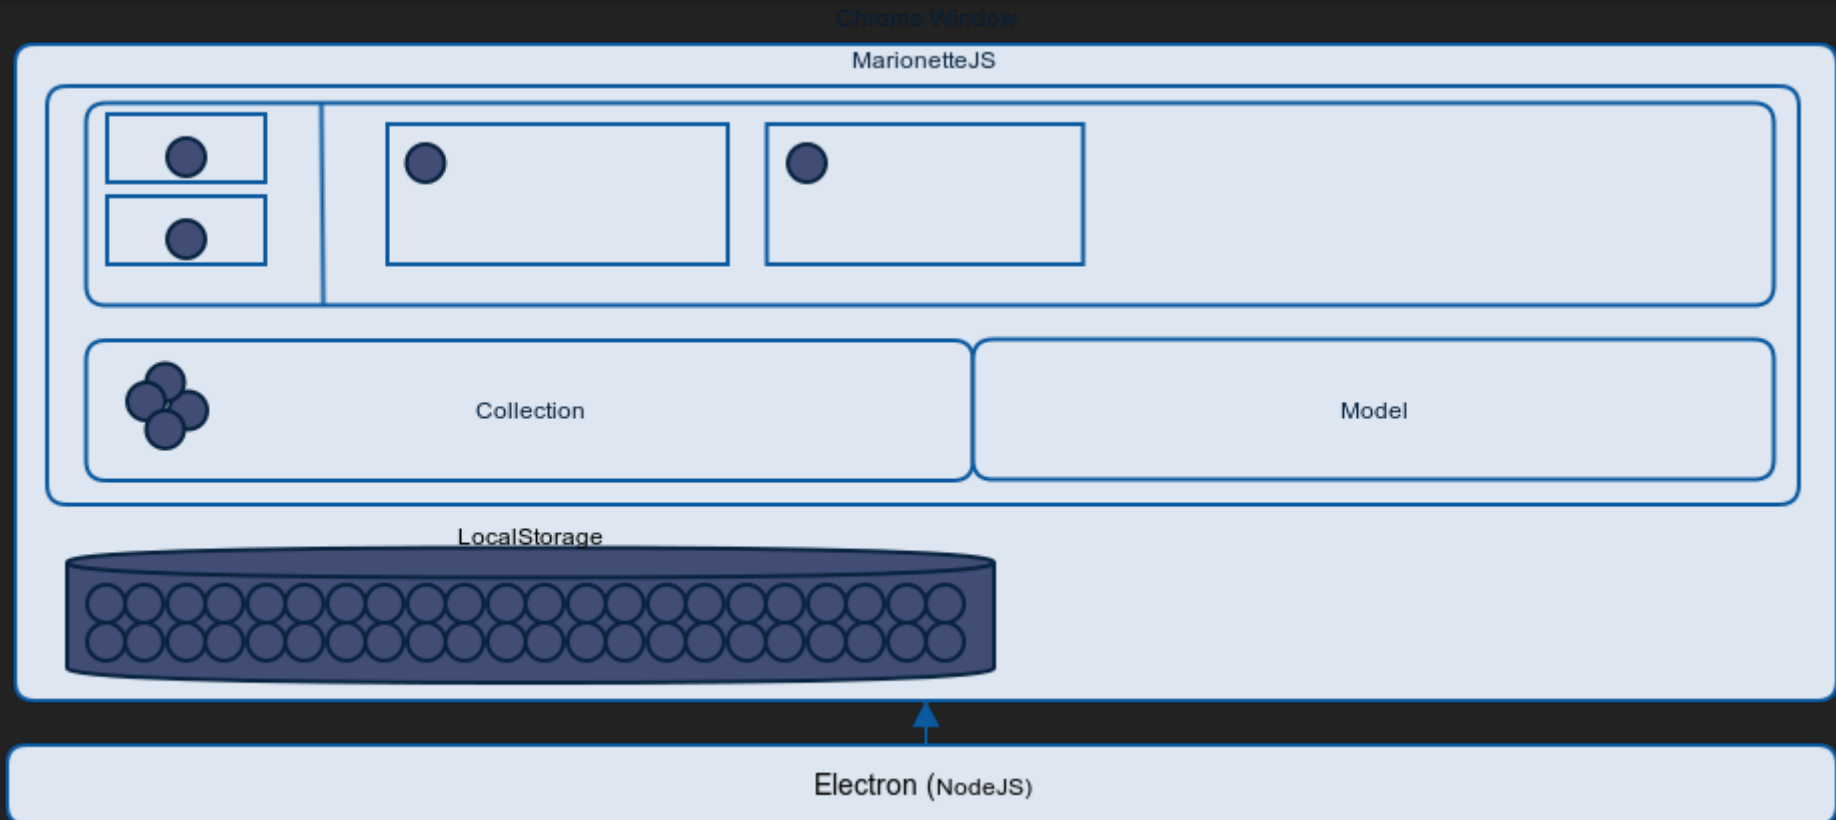

cross platform desktop apps

# UN SERVEUR POUR LES CONTROLLER TOUS !

# IMAGINONS L'ABSENCE DE SERVEUR

# UN EXEMPLE ?

TodoMVC est là pour nous ;)

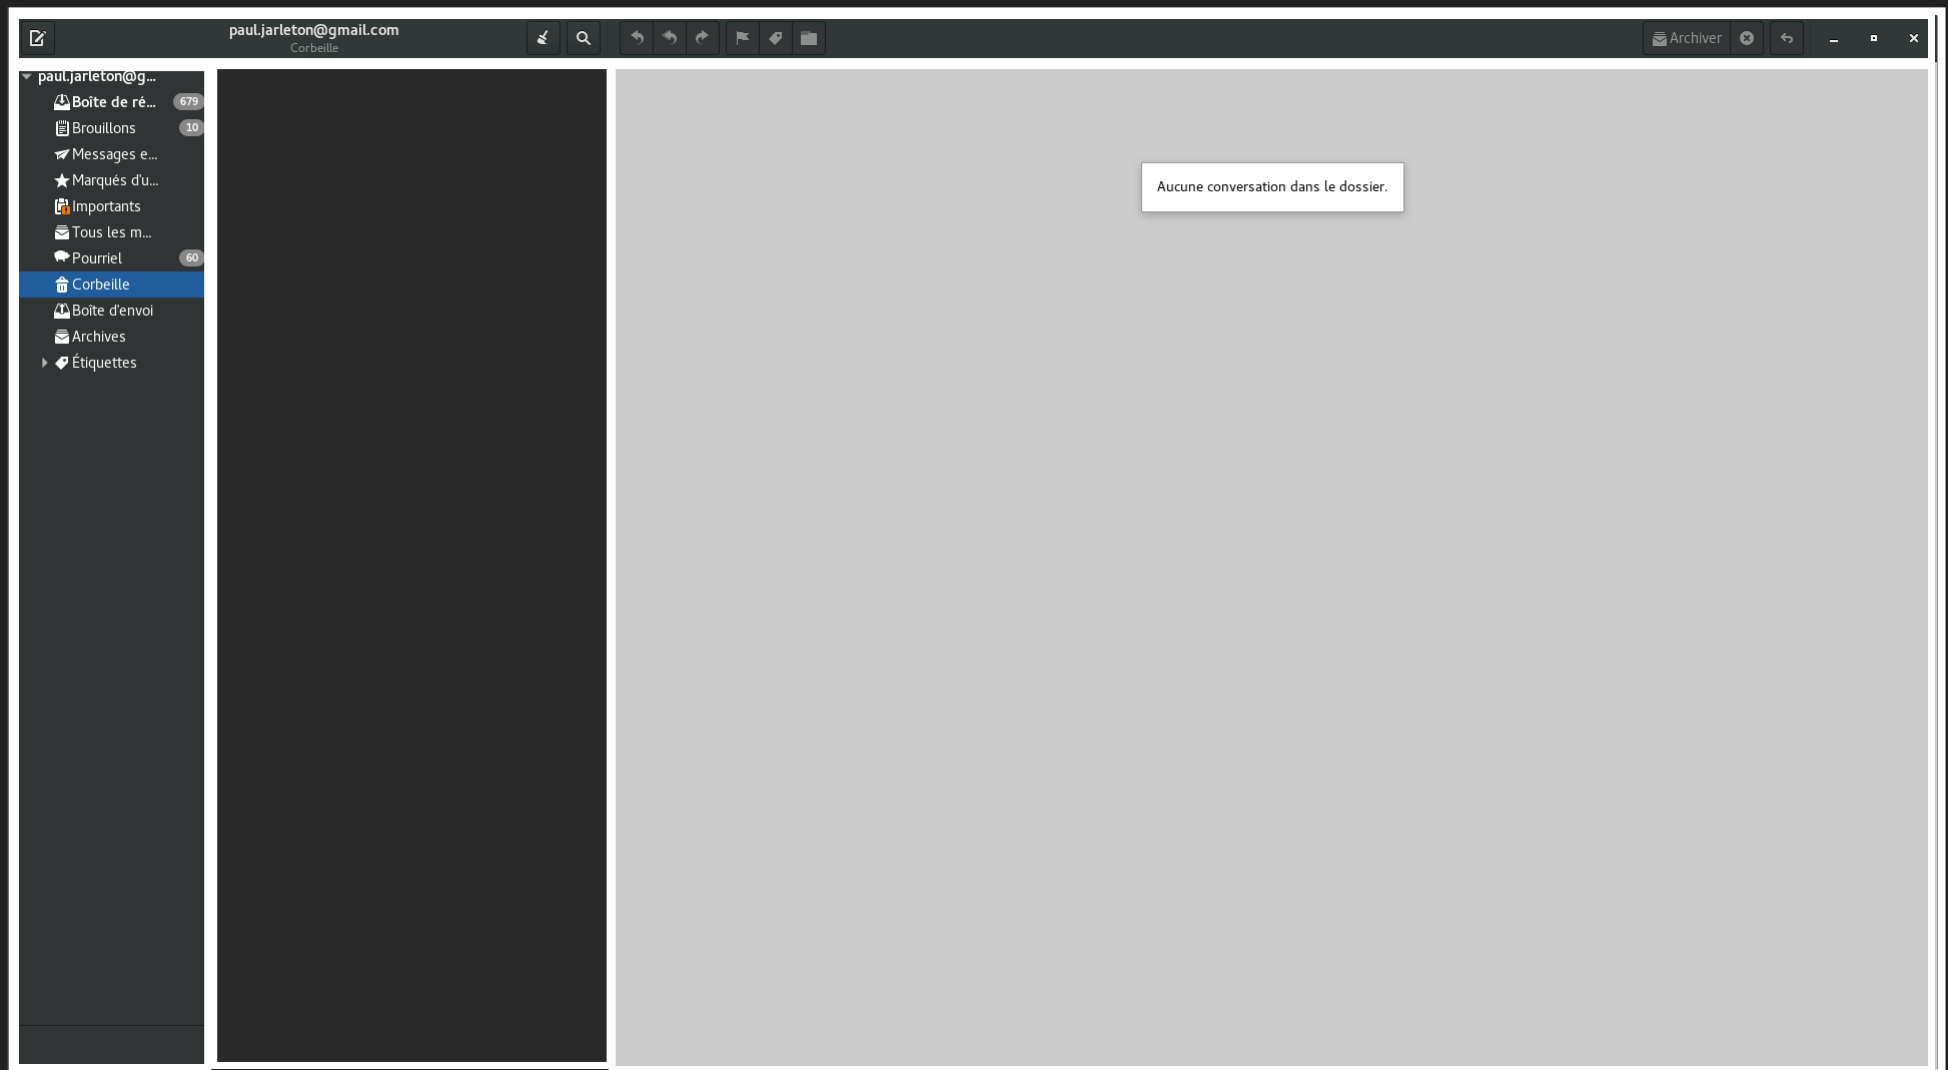

# MARIONETTE AU PLUS HAUT !

- Regions
- LayoutView

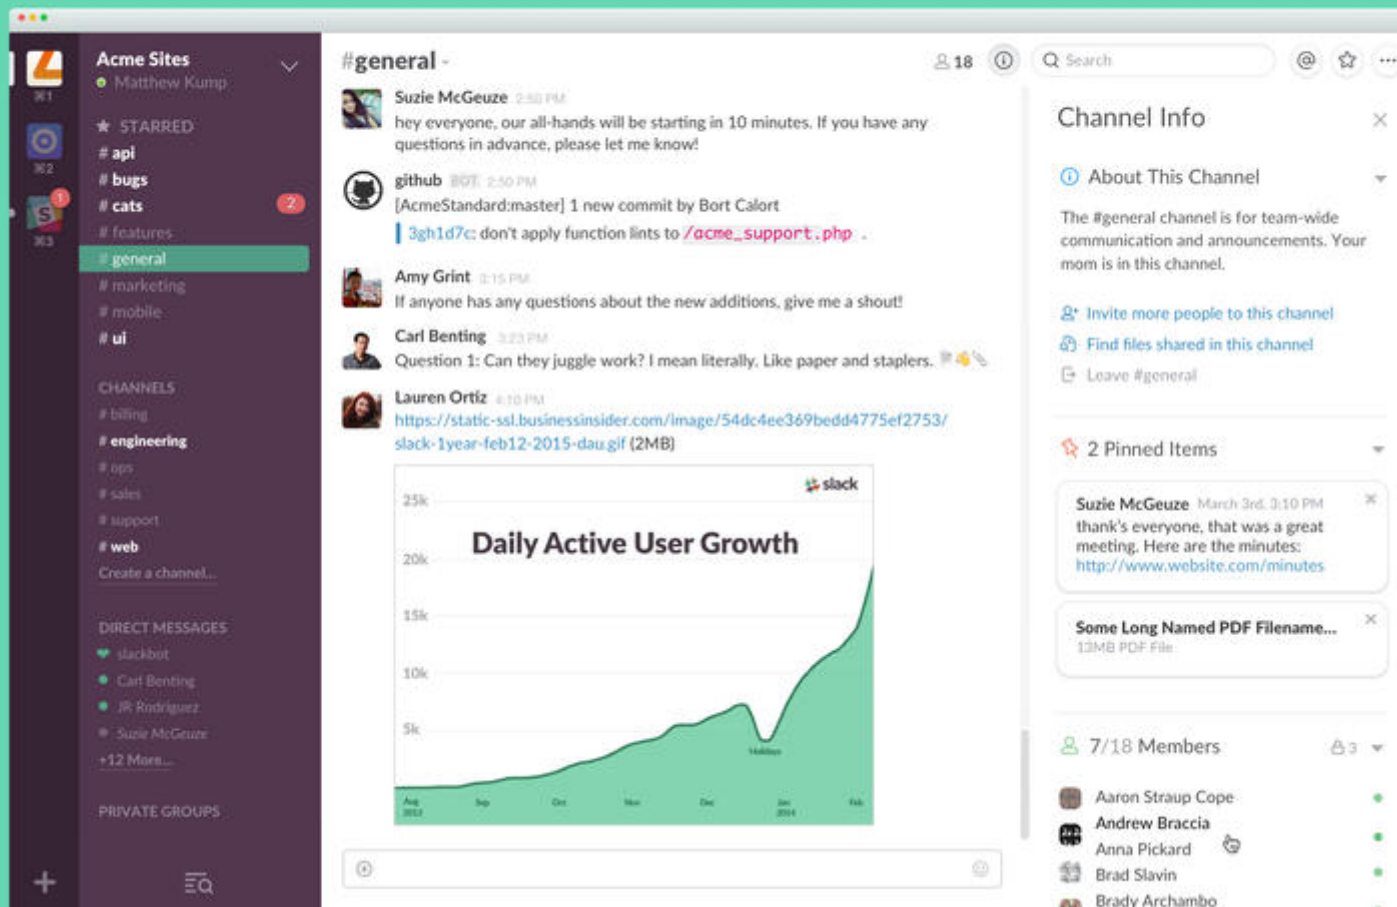

```
var AppLayoutView = Marionette.LayoutView.extend({  
    template: "#layout-view-template",  
  
    regions: {  
        menu: "#menu",  
        content: "#content"  
    }  
});  
  
var layoutView = new AppLayoutView();  
layoutView.render();
```

# GTK EXAMPLE

# ELECTRON EXAMPLE

All your team's messages, files and services in one place.
